P.S. below.

Dear Harold,

Thank you for the discs. I will copy the files and send them back to you shortly. I look forward to reading more by you about Posner that was not included in *Case Open*. One of the few books that I have by you that I have not yet read is *Never Again*. I will make an effort to get to this in the near future.

I made another trip to the archives and managed to locate the actual copy of *Whitewash* that you sent to Hoover. I also found the letter you sent with the book and a memo on their reaction to your sending the book. I did not see any written text in the book but there were sections highlighted by vertical lines next to certain paragraphs. There were also a few sections that were underlined. I would assume that there is some separate written text in another document that may refer to the highlighted sections but I was unable to find this. I may make another attempt to find Frazier's evaluation and will share this with you if I locate it. It may not be there but you never know. It's amazing what they did write down that still exists in their files so I might come across it in a future search.

I did find some additional documents in my latest trip to the Archives that you may find interesting. I am enclosing copies of these for you to read if you would like. I will try to make another trip to look through your files in the near future if possible. Your Specter, Belin and especially your Lewis and Schiller information would be interesting to me. I also am particularly interested in any documents showing surveillance, disruption and propaganda activities against you by US intelligence agencies that I have not seen.

I hope you are feeling better and wish you the best. I appreciate your help given to me and am in awe of both the quality and quantity of work you have done on this subject. I hope to see you again soon.

P.S. I have copied the discs and they are enclosed. I also found a document about Bobby Kennedy & the Castro-Mafia plots. Perhaps it is the one you used to have. - D.S.

Respectfully yours,
David W. Starks
